

# Sinan Oğulcan Yozgat

Mid – Level Technical Game & Simulation Designer

Ankara, Türkiye | +90-(530)-461-8269 | [oggy@soglc.cn](mailto:oggy@soglc.cn) | Last Update: Jun '26

## Summary

**Technical Game & Simulation Designer** with hands-on experience in **digital museums** and **serious games** for organizations including **TAI** and **ASELSAN**. Specialized in **scalable systems** spanning **core gameplay loops** and **simulation logic**. Currently focused on **developing mobile games** and **technical training simulations**, combining game design, real-time 3D technologies, and interactive learning systems.

## Work Experience

**Belen&Partners** - Interactive Designer | Mar 2024 - April 2026

- Designed **Unity-based** interactive systems for **Digital Experience Centers**.
- Accelerated** architectural production **by 21x** by integrating **AI-assisted workflows** into rendering and design pipelines.

**Freelance** - Game Designer & Swift Developer | Nov 2023 – Mar 2024 (5 Mos)

- Designed **gameplay systems**, **financial algorithms**, **core loops**, and **progression structures** for indie and personal projects
- Created **prototypes** to validate mechanics, **player flow**, and **financial logic** in **iOS-based applications**, supported by documentation (**GDDs & SDDs**)

**BNBC Int.** – Game Designer & 3D Generalist | Mar 2022 – Nov 2023 (21 Mos)

- Designed and developed **serious games** and **interactive systems** for **defense industry leaders** and **government** organizations.
- Optimized** production pipelines and **in-engine assets**, improving visual quality, **real-time** performance, and **team productivity**.

**Freelance** – 3D Artist & Software Developer | April 2020 – Mar 2022 (22 Mos)

- Produced and sold modular **game assets** for **online marketplaces**.
- Managed the **full asset product lifecycle**, including **productization**, **pricing**, **documentation**, and **feedback iteration**.

**Gazi University DAO** – Software Developer | Sep 2018 – Feb 2020 (17 Mos)

- Led development of **virtual museums** with **3D visualization**, **databases**, and **gamified digital heritage** systems for Digital Archaeology Organization.
- Managed** the development **team** and coordinated directly with **academic stakeholders**.

## Technical Toolkit

**Engines:** Unity Engine, Unreal Engine, WebGL, GDevelop,

**Coding:** C#, Python, JavaScript, React.js, Flask, Swift, Git, Tailwind CSS

**Design:** Blender, Photoshop, Illustrator, Premiere Pro, AfterFX, InDesign, Substance Painter

**AI:** Google Veo3, Google Nano-Banana, Adobe Firefly, Mnml, Midjourney

**Management:** Word, Excel, PowerPoint, Product Analysis (KPI, Retention, ARPU, LTV)

## Education

### Academic Progress

**MSc: Hacettepe University - CS & Game Programming (GPA: 3.58 / 4.00) | 2025 – 2026**

**FYP:** Game Design and Development Guide with Unreal Engine 5 for Cosmic Contamination

- Focused on the **Serious Games Development** and Automated Data Pipeline and **Metric Results of a Game**; Developed **6 game prototypes**.

**BSc: Gazi University – Archaeology (GPA: 2.64 / 4.00) | 2016 – 2022**

**Thesis:** Modeling and Game Engine–Based Processing of Ceramic and Glass Materials

- **Founded and led the Digital Archaeology Organization**, improving excavation data analysis efficiency through interdisciplinary collaboration across archaeology and related fields such as Anthropology, Art History, and Theatre.

### Relevant Certifications & Additional Educations

**Game Design & Development with Unity** - Michigan State University

**Game Design: Art & Concepts Specialization** - CalArts

**Mobile Game Development with Unity & C#** - Udemy

**Programming with Python, C# and Java** - METU

**Data Analysis with NumPy & Pandas** - EDUCBA

**Logic & Algorithms** - Stanford University

**Strategy in the Digital Age** - Boğaziçi University

## Core Skills

**Game Design:** Core loops, progression systems & GDD/SDD documentation for serious games and simulations.

**Real-Time 3D & Technical Implementation:** Unity prototyping (C#), real-time optimization & 3D environment/prop modeling.

**Narrative, Presentation & Creative Production:** Narrative design, pitch materials & gameplay trailer production with basic audio integration.

## Languages

**Turkish** (Native) | **English** (Professional) | **French** (Basic) | **Italian** (Beginner)

**Latin** (Academic) | **Hittite Cuneiform** (Academic)

## Interests & Personal Practices

**For mental stability: Martial Arts** (Muay-Thai / Wing Chun / Tai Chi) | **For multidimensional thinking: Music** (Drums / Guitar / Bass Guitar / Piano / Violin) | **For skill increasing: Illustration** (Cartoon / Digital Art / 3D Art) & **Writing** (Movie and Series Scripts / Personal Novels / Game Scenarios) | **For good memories: Sports** (Squash / Running / Cycling / Trekking | Calisthenics) & **Adventure** (Scuba Diving / Parachuting / Archeological Surface Researching) | **For just being cool: Photography** (B&W Shots, Micro Shots, Nature Shots)
